

Coronavirus (COVID-19)

Novant Health is prepared to care for patients who show symptoms of coronavirus and to keep team members and volunteers safe. Use this resource to learn more about the virus and ways to lower your risk of exposure.

Coronavirus symptoms

1

Fever

2

Cough

3

Shortness of breath

IMPORTANT NOTE:

If you don't have MyChart, you'll need to sign up for a free account before you can begin a virtual visit.

[NovantMyChart.org/mychart/authentication/login](https://www.novanthealth.com/mychart/authentication/login)

Protect you and your family

Wash your hands for more than 20 seconds.

Keep space between yourself and others.

Touch your face less.

Stay home as much as possible.

Additional tips to lower your risk of germs while running errands or out in public

- Carry your own pen to use in public.
- Use hand sanitizer for electronic keypads and other communal items.
- Skip the handshake — a nod will do.
- Clean your cell phones.

What to do if you feel sick

Take our online assessment tool
Experiencing symptoms? Use our coronavirus self-assessment tool at [NovantHealth.org/coronavirus](https://www.novanthealth.org/coronavirus).

Call your doctor
Call your doctor before leaving home if you think you've been exposed to the coronavirus or have symptoms.

Don't have a doctor?
If you don't have a primary care doctor, call our helpline at **1-877-9NOVANT** to determine next steps and/or if directed by the online self-assessment.

Stay home
Need care that's not an emergency? Consider e-visits, on-demand video visits and scheduled video visits at [NovantHealth.org/virtualcare](https://www.novanthealth.org/virtualcare).

Don't have a doctor?
Call our 24/7 helpline at **1-877-9NOVANT**.
